Major Accomplishments of California CUPA Program

California CUPA
Enhancing public health, safety & the environment

What is CUPA?

A Certified Unified Program Agency (CUPA) is a local agency certified every three years by CalEPA to implement several state regulatory inspection initiatives, consolidate the enforcement of state and local hazardous materials and waste laws, and perform emergency response functions.

History

In the early 1990s, the regulation of hazardous materials and waste, as well as local emergency response, was diffused across more than 1,100 local and state agencies in California. In 1993, the Governor signed California Senate Bill 1082, establishing the CUPA program. The law enabled the consolidation of the administration, permit, inspection, and enforcement activities of many environmental and emergency management programs. City and County agencies could apply to become a CUPA and receive delegated authority from State agencies to enforce a variety of laws in their jurisdiction. Additionally, a local agency could apply to be a Participating Agency (PA) working with a CUPA to implement only a portion of the delegated programs.

Soon after, CUPAs and PAs throughout the state formed the California CUPA Forum to coordinate Unified Program implementation efforts and represent all unified program agencies with a single voice. California CUPA Forum members and local, state and federal agency representatives established the Unified Program Administration and Advisory Group (UPAAG) to effectively address policy decisions, training and problem solving.

Key programs administered

- Aboveground Petroleum Storage Act (APSA)
- California Accidental Release Prevention (CalARP)
- Hazardous Materials Release Response Plans and Inventories (HMRRP)
- Hazardous Material Management Plan (HMMP)
- and Hazardous Material Inventory Statements (HMIS)
- Hazardous Waste Generator and Onsite Hazardous Waste Treatment
- Underground Storage Tank Program (UST)

CalCUPA Forum Board

The California CUPA Forum is run by an elected board. The Board consists of local fire and environmental health representatives who come together to discuss strategies and positions on state initiatives and requirements; to foster and provide training; and to consolidate, coordinate and make consistent unified program implementation. For more information, visit calcupa.org.

"The state and local partnership of the CUPA program is a key component in protecting public health and the environment in California, with over 130,000 inspections conducted annually."

Caroline Godkin,
CalEPA Deputy Secretary

State Agency Engagement

State oversight of CUPA is provided by:

- Governor's Office of Emergency Services (CalOES)
- Department of Toxic Substances Control (DTSC)
- Office of the State Fire Marshal (OSFM)
- State Water Resources Control Board (State Water Board)
- California Environmental Protection Agency (CalEPA)

Major Accomplishments of California CUPA Program

Increased Number of Inspections

CUPAs and PAs have expanded routine inspections of the regulated community during 26 years of existence. In the first year, just 17,000 inspections were completed, compared to over 130,000 per year in 2019. Increased and consistent inspections throughout the state have led to overall higher regulatory compliance within the regulated community.

"More facilities and businesses are being inspected, more are being captured by the unified program elements...leading to more compliance throughout the state than ever before. Program Agencies are held to specific standards and expectations, and through collaboration and coordination with the State oversight agencies, are for the most part in compliance. There is no question that CUPA has brought businesses and facilities into alignment with environmental requirements better than ever before."

Past-Chair Eric Scott, Glenn County CUPA

Improved program consistency

Through its partnerships with the California Fire Chiefs Association and the California Association of Environmental Health Administrators, the CUPA Forum Board is actively engaged in establishing, simplifying, and updating laws and regulations that govern the program. The CUPA Forum Board and these agencies have developed guidance documents and extensive technical training to assist regulators and the regulated community understand and comply with environmental laws.

"The technical, legal, and evolving disciplines within program elements could not be delivered by a sole training provider, and they needed to be statewide in a consistent and coordinated manner. Training activities and coordination became a priority early on and has remained so. In collaboration with state partners, the CUPA Forum has facilitated an annual 4-day training conference with over 2,600 attendees and as many as 145 technical sessions for the past 22 years - surpassing all related events in the country."

Kathryn Rogers, Intel Corporation

Greater government efficiency through close collaboration with state oversight agencies

The CUPAs have worked with CalOSHA on inspections of refineries and other facilities subject to the California Accidental Release Prevention Program. CUPAs with petroleum refineries in their jurisdictions have participated in CalEPA's Refinery Interagency Task Force that includes representatives from state agencies and regional air districts. Additionally, CUPAs have performed joint inspections of hazardous waste generators and aboveground storage tanks with state agencies and the US EPA. Also, state agencies and CUPAs have worked together on enforcement and prosecution of violators.

"The cooperation between local CUPAs and the CUPA Forum Board with prosecutors in statewide investigations and prosecutions of environmental violations has been extremely important and has yielded outstanding results."

Robert Nichols, California District Attorneys Association

Enhanced emergency response capabilities

Over the past 20 years, CUPAs have noted fewer major incidents occurring at regulated businesses in their jurisdictions. Data indicate that preventative measures result in fewer facility incidents, and when they do occur, they are less significant.

Effective program efficacy verification

For 7 years, the regulated community has been required to report through the California Environmental Reporting System (CERS) or directly to a local CUPA. Regulated businesses and local governments exchange data with CalEPA through a centralized data portal, enabling faster data retrieval and better information verification regarding each of the program's 140,000 regulated entities.

Training Regulators and Engaging the Regulated Community

Since 1998, the CUPA Forum has hosted a statewide annual training conference to promote knowledge advancement, consistency, and a forum to directly engage industry leaders and public officials. The annual CUPA Conference is one of the largest environmental training venues in the nation with over 2,600 attendees from local, state and federal hazmat, fire and environmental health agencies as well as industry, environmental consultants, academia, students, public officials and exhibitors. The conference offers a one-stop training shop for businesses and regulators with over 200 expert speakers providing 145 comprehensive training classes over 4 days.

ABOUT THE CONFERENCE - 1999-2021

The 2021 California Unified Program Annual Training Conference is presented by the California CUPA Forum, a non-profit 501(c)(6) statewide association (Tax ID 95-4720243). **81 Certified Unified Program Agencies and 24 Participating Agencies implement the Unified Program** in the State of California.

TRAINING TRACKS

Training tracks will include the six CUPA elements (AST, UST, HMBP, HW, Tiered-Permitting and CalARP) along with other tracks that will address current issues.

TRACK COORDINATORS

Admin & Management/Leadership - Jason Boetzer, CalEPA; Kristen Ward, San Bernardino County Fire ; Marjorie Terrell, San Mateo County EH, Sheryl Baldwin, Conference Manager

AST/APSA - Jennifer Lorenzo, Office of State Fire Marshal; Sandra Pence, San Diego EH; Devra Lewis, Contra Costa County HS

CalARP - Dennis Karidis, Sacramento County EMD

Clean Up - Jason Boetzer, CalEPA; Kristen Ward, San Bernardino County Fire ; Marjorie Terrell, San Mateo County EH

Enforcement - Darwin Cheng, Orange County EH; Dennis Karidis, Sacramento County EMD

Emergency Response – Gary Cantwell, Yuba County EH; Mario Tresieras, Los Angeles County Fire Department

HazWaste – Josilynn Spray, DTSC; Nick Crain, Riverside County EH

HAZWOPER - Sheryl Baldwin, Conference Manager

HMBP – Darwin Cheng, Orange County EH; Fred Chun, Santa Clara City Fire Dept.

Industry – Heather Tanner, Sacramento County EMD; Michelle Le, Consultant, Steve Reichow, NES; Vince Mendes, Fresno County DPH

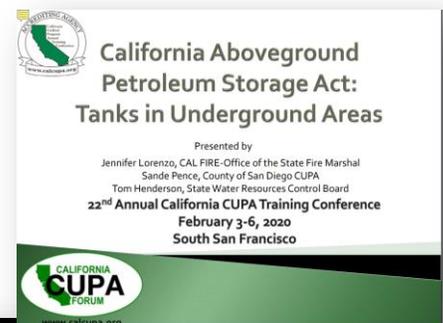

Potpourri - Jason Boetzer, CalEPA; Kristen Ward, San Bernardino County Fire Dept; Marjorie Terrell, San Mateo County EH, Sheryl Baldwin, Conference Manager

Technology - Michael Palazzola, Orange County EH; Manoj Beeravelli, CalEPA

UST - Laura Fisher, SWRCB; Royce Long, LA City Fire; Cher Vue, Sacramento County EMD

SPEAKERS AND PANELISTS

Speakers and panelists include local, state and federal regulators who are at the forefront of environmental policy at the State and Federal level. Additionally, you will find consultants, representatives from a variety of non-governmental organizations, and leading California businesses.

Schedule is subject to change

GENERAL INFORMATION

GOVERNMENT PERSONNEL

Employees of any State, County, Regional, Municipal, or Federal agency qualify

Government registration rate \$375
On January 9, 2021, the rate will be \$425
48 hours prior to first session, the rate will be \$475

INDUSTRY ATTENDEES

Employees of any industry

Industry registration rate: \$475
On January 9, 2021, the rate will be \$525
48 hours prior to first session, the rate will be \$575

REGISTRATION RATE INCLUDES

The conference registration rate includes

- All training sessions
- Certificates
- Unlimited access to all training videos for one year.

REGISTRATION INFORMATION

Registration and online payment process for the conference is available online at calcupa.org.

You will need to **sign in with your member account information** or **create a new member account** prior to registration.

REGISTRATION STAFF ASSISTANCE

Use the LEAVE MESSAGE function on the website for assistance from staff with registration if needed.

SPONSORS

Sponsorship packages are available. If you don't see a sponsorship package that meets your needs, we can work with you to customize a package that is right for you.

VIRTUAL EXHIBITOR HALL

Exhibitors receive one conference registration. Register for a virtual booth by completing the sponsor/exhibitor registration form.

Show times:

7:30 am each morning before sessions start at 8 am
30 minutes before each session throughout the day
11:45 am to 1 pm each session day
Any time there is a sponsored reception

NETWORKING WITH VIRTU-EASE!

- Share product videos and digital PDFs
- Real time chat during Conference hours
- Ability to meet attendees via video chat

PAYMENT

All payments for conference registration, virtual exhibit booths, and sponsorships can be paid directly online with a credit card.

Payment by Check:

Payable to "California CUPA Forum"

Mail to: California CUPA Forum
PO Box 2017
Cameron Park, CA 95682-2017

SIGN UP FOR SESSIONS

1. Sign-up for Conference sessions online in your profile at www.calcupa.org.
2. Review details for each program session, as some may have pre-registration requirements.
3. REHS Continuing Education Contact hours and ICC units will be available.

OBTAINING A CERTIFICATE OF COMPLETION

1. Complete a session evaluation for each session attended
2. Complete an overall conference survey after it becomes available on March 1, 2021
3. After the conference, the Certificate of Completion can be printed from your registration profile at www.calcupa.org. After you login, visit Course History in your member profile to view, save and/or print your CEU Certificates.

Virtual Platform Sponsor page

Platinum Sponsor

NES is a nationally recognized leader in providing superior environmental health & safety training and consulting, clean lab training, industrial hygiene, construction safety oversight, and storm water compliance services. We provide industrial hygiene consulting covering indoor air quality, mold, water damage, exposure to hazardous materials, and more. We deliver environmental compliance expertise on issues from air and water quality to waste management; training across a broad range of environmental health & safety issues and trains thousands of law enforcement personnel.

Bronze Sponsor

The California Conference of Directors of Environmental Health (CCDEH) membership is comprised of Environmental Health Directors from 62 jurisdictions, including all 58 California counties and 4 California cities. Associate membership is open to all Environmental Health professionals (Membership App). Members of CCDEH are also members of the California Association of Environmental Health Administrators (CAEHA), which is the legislative arm of CCDEH.

Student Sponsor

The California Certified Unified Program Agency (CUPA) Forum Board established the CUPA Forum Environmental Protection Trust (Trust) Fund in 2009 (Trust Regulations). This Trust was established to manage and disburse monies from enforcement case settlements to enhance the investigation, inspection and enforcement of Unified Programs throughout the State of California.

CUPA Points Challenge Sponsor

The Home Depot is the world's largest home improvement retailer with nearly 400,000 orange-blooded associates and more than 2,200 stores in the U.S., Canada, and Mexico. The typical store today averages 105,000 square feet of indoor retail space, interconnected with an e-commerce business that offers more than one million products for the DIY customer, professional contractors, and the industry's largest installation business for the Do-It-For-Me customer.

Virtual Platform Home Page Wall Logo

CUPA Points Challenge Sponsor

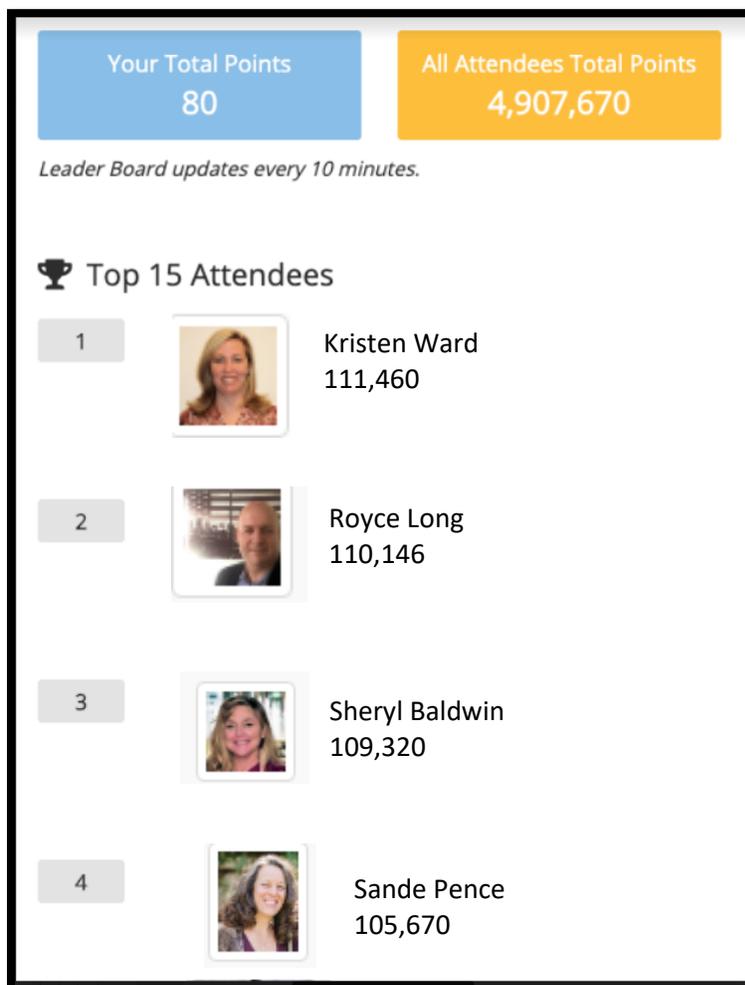

Attendees who earn the most points will win one of our fabulous raffle prizes.

Points are assigned for virtual platform activities.

Attendees earn points for:

- | | |
|--------------------------------------------------------|--------------------------------------------------------|
| Requesting Let's Meet - 150 Pts | Sharing your Business Card with an Exhibitor – 125 Pts |
| Uploading a Photo to your Profile – 100 Pts | Visiting an Exhibitor – 75 Pts |
| Joining a Group Chat - 50 Pts | Starting an Attendee Chat - 50 Pts |
| Viewing an Exhibitor's Marketing Video – 50 Pts | Updating your Profile – 25 Pts |
| Sharing a Business Card with another Attendee – 25 pts | Joining a Video Chat - 25 Pts |
| Viewing an Exhibitor's Marketing Document – 25 Pts | Attending a Session – 25 Pts |
| Click (and complete) a Session Survey - 25 Pts | |

A Leaderboard keeps track of points and is updated every 10 minutes. The top point attendees will win one of our raffle prizes. The number of awarded prizes will depend on the number of raffle prizes that are donated to this year's conference. Winners will be announced on March 18, 2021, and prizes will be mailed to the winners.

Student Sponsor

Every year, the CUPA Conference Student Committee extends an invitation to all students interested in a career path in the field of hazardous materials to attend the conference. For this year's virtual conference, **companies can sponsor an unlimited amount of students at the government registration rate.**

Approved students will be permitted to attend all sessions for the duration of the conference

Making A
Difference

One Inspection
At A Time

- During the 2019/20 or 2020/21 school year were you a full-time student at a college or university with a strong emphasis in science related course work?
- Do you attend a California college or university OR did you graduate from a California high school?
- Would you be interested in a rewarding career where **YOU impact human health and the environment in a positive way?**

If so, complete a [Student Scholarship Application](#) by **January 15, 2021**, to attend the 23rd Annual California Unified Program Agency Training Conference **at no cost!**

- Join **over 2000 environmental professionals** and learn more about what it takes to be a part of this exciting and dynamic **career opportunity** in Hazardous Material & Waste Management!
- In addition to attending educational sessions, there will be virtual networking opportunities with government and industry representatives.

To learn more, check out our video at www.calcupa.org or scan here

Career Video

- For your application to be considered you must upload a course schedule showing 7 units from the current or previous school year. If you have already graduated, upload a copy of your college diploma. If the college/university is not within California, a copy of your California high school diploma must also be uploaded.
